

Model railroad administration software

Hosting operating sessions is fun but means a lot of administrivia – scheduling sessions, inviting crews, keeping track of who came, and adding session photos on your Web site.

Boomer Jack makes this easy!

- ◆ **Schedule operating sessions instantly.** Choose a day of the month (3rd Saturday, 1st Friday), starting and ending month and year, the starting time, and even the earliest time you want crews to arrive. Boomer Jack instantly creates those sessions .
- ◆ **Add a crew-call page to your Web site where crews can mark-up.** A calendar highlights each session date, and crews can state a job preference. Boomer Jack sends e-mail confirmation.
- ◆ **Extra board.** Crews can mark-up on the extra board for filled sessions. Boomer Jack alerts them when a position opens.
- ◆ **Cancel sessions (or restore them later).** Boomer Jack notifies crews who marked-up for these sessions.
- ◆ **Jobs:** Crews can state preference at mark-up. You assign jobs for each session.
- ◆ **Grab crew names for session name tags.** Use label-printing software, word processor, or spreadsheet to print them.
- ◆ **Quickly post session photos on your Web site.**
- ◆ **Mark sessions held and record attendance.** Boomer Jack sends thank-you notes to crews, with the URL for the session photos.
- ◆ **Compose and send e-mail to crews.** Invite everyone to mark-up after you've scheduled operating sessions for the year.
- ◆ **Edit crew information**
- ◆ **Check how often each person has operated.** See the most-recent date.
- ◆ **import and export crew names and e-mail addresses.**
- ◆ **Boomer Jack runs on your Web site and stores data in a database there.**

Put Boomer Jack to work on your railroad today!
